END LOADER

STANDARD MODELS

- Available in processing capacities of 100, 200, 300, and 400 lbs. dry weight load sizes
- Ideal for low ceiling installations and washrooms with limited space
- Thorough wash action and high-speed extraction assure high-quality washing
- Inverter controlled wash and extract speeds.
- Easily adjustable belt tensioning system and accessible guarding
- Durable shaft mounted full area friction brake.
- Suspension guarding
- Strength and durability – the highest quality materials and simple, rugged design make this a truly heavy-duty machine.

CONTROL PANEL

Standard on all Braun End Loader machines, touch screen controls are simple, intuitive, easy to use, and control all major machine functions.

SPECIFICATIONS

For detailed equipment specifications please consult with your Braun Regional Sales Manager or contact us by email at equipmentspecifications@gabraun.com

AUTOMATIC SAFETY AND AUTO LOAD REBALANCE TECHNOLOGY

Optical sensors on Braun End Loaders will instruct the machines to:

- Automatically shut down if they are out of balance
- Automatically balance loads prior to moving into the extraction phase to evenly distribute wet goods against the cylinder, eliminating the need for artificial counterbalance

BRAUN'S NEUTRON SUSPENSION

- Unsurpassed vibration dampening allows for installation without a foundation, even on upper floors that can hold the static weight of the machine!
- Isolates vibration from the workspace
- Promotes less wear on major end components for exceptional durability and machine longevity
- Provides for consistent wash performance

SINGLE MOTOR DRIVE

- Single motor drive is standard on Braun's 400 lb. End Loader
- Single motor drive – durable and proven drive components

Endloader Single Motor Drive
